the Provincial Nominee Programs

Are you planning to immigrate to Canada? The Canadian Provincial Nominee Program can be that one opportunity you're looking for! It offers non-Canadians to obtain a permanent residency in Canada and turn their lives around in a province that they prefer.

The Canada PNP offers a plethora of advantages that benefit the immigrants as well as the Canadian local communities:

- On-demand Regional Selection: Each province of Canada has its own PNP, which means each province follows a different set of parameters that cater to its own economic needs. Thus they can target specific skills and industries in demand in that province.
- Express Entry Pathway: Several of these PNPs are connected to the Federal Express Entry system, which allows candidates to receive additional points towards their Comprehensive Ranking System(CRS). That means higher chances for such applicants to get the Invitation To Apply (ITA) for PR.
- PNPs with lower CRS score: Your CRS score isn't high enough for an ITA? Don't worry! Some provinces have PNPs with low CRS score requirements, which permits individuals with lower scores to receive their ITA.
- Faster processing time: When we compare other immigration programs, PNPs prove to have a shorter processing time. So you can start your Canadian business and life as soon as possible!

Important notes

- Several provinces closed their entrepreneur and business streams in 2025 in response to the allocation cut. Saskatchewan closed its Entrepreneur and Farm pathways permanently, Ontario closed its Entrepreneur Stream, and New Brunswick replaced its Entrepreneurial Stream.
- Provincial streams open, close and change often. Each province publishes its own status page, and XIPHIAS confirms a stream's status before filing.
- A provincial nomination adds 600 CRS points in Express Entry, which is why Provincial Nominee Program draw cut-offs sit near 700-770.

Compliance

- The 2026-2028 Immigration Levels Plan sets Provincial Nominee Program admissions at 91,500 for 2026 and 92,500 for both 2027 and 2028.
- This is a partial restoration. The 2025-2027 plan had halved the PNP from 110,000 to 55,000 for 2025, which is what forced several provinces to close their business and entrepreneur streams.
- Total economic immigration for 2026 is 239,800, with total permanent residence held at 380,000.
- The federal Business category was cut separately and far harder, to 500 admissions per year for 2026, 2027 and 2028.
- The timeline shown on this page is XIPHIAS's own observed average from our case files, not an IRCC published figure. IRCC publishes live processing times through its own checker tool; your individual case can run faster or slower than either.
- Provinces charge their own nomination application fees, which vary by province and stream; IRCC permanent residence fees apply after nomination. XIPHIAS confirms the current amounts before filing.
