Overview

Spain gives non-EU founders two connected steps: forming a Spanish company, usually a **Sociedad Limitada (S.L.)**, and obtaining **residence as an entrepreneur** under **Ley 14/2013**. The entrepreneur route sets **no minimum investment and no minimum job creation**. What it requires is a business plan that is innovative and/or of special economic interest for Spain, backed by a **favourable report from ENISA**.

Forming the S.L.

- **Minimum share capital: €1**, since Ley 18/2022. €3,000 is now a threshold rather than a minimum: below it, 20% of profit must go to the legal reserve, and on liquidation the shareholders are jointly liable for any shortfall.
- **NIE** (foreigner identity number) for each foreign shareholder or director.
- **Company name certificate** from the Central Mercantile Registry, issued within 24 working hours and valid for three months, renewable.
- **Incorporation through CIRCE**, the electronic company-formation system: an S.L. can be incorporated in **1 to 10 days**.

Official costs

Item	Amount	Notes
NIE (tasa 790/012)	€9.84	National Police fee
Notary + Mercantile Registry: telematic S.L. with standard articles (*estatutos tipo*), capital up to €3,100	€100	€60 notary + €40 registry, regulated tariff
Notary + Mercantile Registry: other telematic S.L.	€250	€150 notary + €100 registry, regulated tariff
Notary + Registry outside these regimes	Scales with capital	Regulated tariff
Minimum share capital	€1	Paid into the company

Municipal activity licences depend on the city and the activity, and translations and apostilles depend on your documents; XIPHIAS quotes them per file.

Residence as an entrepreneur

Stage	Duration
Entrepreneur visa, issued by the consulate	1 year
Residence authorisation granted in Spain (UGE-CE)	3 years, renewable for 3 years

ENISA issues its report on the business plan within **10 working days**. The authorisation gives residence **in Spain**; it allows visa-free travel in the rest of the Schengen area for up to **90 days in any 180**, but it is not a right to live or work elsewhere in the EU. Your spouse or partner and children can apply to accompany you.

Tax and social security

Company	2026 corporate tax rate
General rate	25%
Newly created companies (first two profitable tax periods)	15%
Micro-enterprises (turnover under €1 million)	19% on the first €50,000 of profit, 21% on the rest
Reduced-dimension companies (*empresas de reducida dimensión*)	23%

A director or controlling shareholder must register with Social Security as an *autónomo societario* (RETA). The 2026 minimum contribution base, applied on annual regularisation, is **€1,424.40** a month at a rate of **31.40%**, about €447 a month at that base. It is a recurring personal cost to budget for from the start.

Timeline

- Name certificate: within 24 working hours.
- Company incorporation through CIRCE: 1 to 10 days.
- ENISA report: within 10 working days.
- Visa or residence authorisation: consular and UGE-CE processing follow, and this is the longest stage.

The Golden Visa is closed

Spain's residence visa for investors (the Golden Visa) was abolished by Ley Orgánica 1/2025 with effect from **3 April 2025**. Applications made after that date are inadmissible, including new family applications arising from marriages or births after 3 April 2025. Permits already granted remain valid for their term and can be renewed. For a non-EU founder, the entrepreneur route is the business-based alternative.

Long-term residence and citizenship

After five years of continuous legal residence you can apply for long-term residence. **Spanish citizenship by residence requires ten years for Indian nationals** under article 22 of the Civil Code; the two-year period for Ibero-American and certain other nationalities does not extend to India. India does not permit dual citizenship: acquiring Spanish citizenship would end Indian citizenship under Section 9(1) of the Citizenship Act 1955. Spanish residence does not.

Risks to plan for

- ENISA's report is the gate: a plan that is neither innovative nor of special economic interest for Spain will not receive a favourable report.
- Residence is in Spain only; Schengen travel is limited to 90 days in any 180.
- Share capital below €3,000 brings the legal-reserve rule and shareholder liability on liquidation.
- RETA contributions are a personal monthly cost for directors and controlling shareholders.
- Renewal depends on the business remaining active.

Key benefits

- No minimum investment and no job-creation requirement for entrepreneur residence.
- S.L. formation from €1 of share capital.
- Corporate tax of 15% for newly created companies in their first two profitable tax periods; 25% general rate.
